EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Klaus Schweitzer on September 29, 2003.

Please amend claim 14 as follows:

14. An acidified beverage comprising:

- (a) water;
- (b) a flavor component selected from the group consisting of tea flavor and cola flavor;
- (c) an edible acid component present in an amount suitable to maintain the pH of the beverage in the range of from about 3 to about 4;
- (d) at least one high intensity sweetener composition;
- (e) a water-soluble oligosaccharide fiber selected from the group consisting of inulins, oligofructose and fructans, said inulins, oligofructose [~~oligofructans~~] and fructans having a caloric value of less than about 5 Kcal/g; and
wherein the weight ratio of oligosaccharide to high intensity sweetener is 500:1 to 5,000:1.

Art Unit: 1761

The following is an examiner's statement of reasons for allowance:

While the prior art of record utilized various combinations of fructo-oligosaccharides with high-intensity sweeteners, both in foods and beverages, the large amounts of fructo-oligosaccharides in relation to high-intensity sweetener, in the amounts instantly claimed (500:1 to 5,000:1), were not taught or suggested by the prior art. Harada et al. (US PAT 5,169,671) discloses the production of various foodstuffs containing a fructose polymer with aspartame, including a lactic acid-containing yoghurt beverage. However, the ratio utilized therein is 250:1 (8 grams polyfructan to 0.032 g aspartame. See example 21). Admiraal et al. (US PAT 6,372,277) disclose sweet-stable acidified soft drinks where the ratio of fructan to dipeptide sweetener is from 1:20 to 1:300. However, none of the references in the prior art teach or suggest increasing the ratio to such greater amounts, with the effects as shown in the instant specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
